

Please send a message in this city election. Bastrop is not anyone's Monopoly board.

*Early voting is thru Tuesday, May 2,
Election Day is Saturday, May 6*

If you, like us, are worried about how Bastrop's growth has the 'good ol' boys' club constantly trying to cash in, risking Bastrop's affordability and water, please consider **NOT** voting for these guys:

Willie DeLaRosa for Mayor – played a pivotal role in putting the worst kind of special interest for Bastrop – a profiteering water marketer – on the Bastrop Economic Development Board. He's also been at this kind of wheeling and dealing for 30 years.

Bill Ennis, Council Place 4 – in last November's election, led the PAC ads attacking more reasonable that would have given Bastrop voters more power to rein in City Hall.

Lee Harle, Council Place 3 – signed on to the same PAC ads attacking more reasonable petition requirements, therefore aiding the continuation of good ol' boy politics in Bastrop.

There are some very good people running in this election. Choose them, please.
